REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of New Hampton:

I shall refrain in this, my first report, from commenting extensively on the schools as I find them, as my service in connection with them has been but one term. It would be unfair, I think, to all concerned, to form judgments too hastily.

I do wish to say that I am pleased with the general appearance of the inside of the school buildings; all seem to be neatly kept and in good condition generally. This shows that the teachers are good housekeepers and guarding the health of the children.

The pupils seem interested in their work and the discipline is apparently satisfactory. Both are indications of good teaching and bespeak progress. I am certain that good work is being done in all the schools, but feel that better work could be done with more equipment to do with. Text books seem quite adequate, but supplementary reading material in History, Geography, Science, Literature, and along general informational lines, is deplorably lacking. Present day methods of teaching demand more supplementary material than basic text books. A certain definite sum appropriated each year for five years would help meet this need without much additional burden and afford means for a broader and more valuable teaching.

The great event of the year, so far as New Hampton schools are concerned, is, of course, the completion of the new schoolhouse in the village. Teacher and pupils and, I presume, parents of children attending this school were equally delighted when, on the morning of January 3, 1938, this building was opened for school use. The wisdom of building this new schoolhouse in the village

on a lot affording spacious play grounds is to be highly commended, as supervised sports and organized games are becoming more and more recognized as important parts of an educational system. The play grounds are there, and next must come play ground apparatus.

The per capita cost of education in New Hampton, exclusive of tuition paid, is high:—\$107.71. There are only 35 towns paying more; 201 paying less. This is probably unavoidable with so many schools, widely scattered, and half of them with fewer than ten pupils.

I would call your attention to the statistical table. Note particularly the per cent of attendance, the average daily absence, and number of tardinesses in each school. Parents, more than teachers, can help better these records by having children attend school regularly and getting them there on time.

I desire to express my appreciation of the kindly and courteous manner shown me as your superintendent by School Board and citizens since coming here. I trust I may merit the confidence and good will of you all as we work together for the best good of the children of New Hampton. That best good can come only by the cooperation of parents, school officials and citizens.

FRED S. LIBBEY,
Superintendent of Schools.

THE NEW SCHOOL BUILDING

After several years consideration, a new modern school building has been erected on a location which provides adequate play ground facilities for the children.

The land, consisting of several acres, was purchased of Frederick Smith, for the sum of \$800.00.

A contract for \$5,459.42 for the new building was let to the firm of Muzzy and Hopkins of Laconia, they being the lowest bidders. Plans and specifications were drawn by Norman C. Randlett, architect, of Laconia.

The new school building, which is 42 feet long by 23 feet, 2 inches wide, was practically completed and ready for occupancy after the Christmas vacation. All equipment, furniture and lighting fixtures were removed from the old building to the new. A modern sanitary drinking fountain replaces the old water pail and flush toilets are provided for both boys and girls. A basement under the entire building provides ample fuel storage and a place for the children to play on stormy days.

The sum of \$4,000 was borrowed from the Meredith Trust Co., payable by serial notes at 4% interest.

Complete accounts of expenditures will appear in the 1937-38 report.

REPORT OF SCHOOL NURSE

School Year, September, 1936 to June, 1937

It is a pleasure to submit the following report of work done in New Hampton.

103 Pupils inspected

3 Pupils having defective vision uncorrected

17 Pupils having defective vision corrected

24 Pupils having defective teeth

12 Pupils having diseased tonsils

5 Pupils having diseased tonsils removed during year

84 Visits to schools

103 Weighed three times

18 Cases of mumps occurred

26 Cases of measles were reported

2 Children were transported to the oculist

30 Children were transported to the dentist

2 Children were transported to the clinic in Laconia

2 Pupils assisted with transportation to tonsil clinic

68 Visits were made to homes

One boy has been removed from home and has been treated since June 1937 at the fresh air school con-

nected with the Pembroke Sanatorium. A steady gain is being made. This boy will return to his home much improved in general health.

About half of the children requiring dental work done were treated in June and May at special rates at the dentist's office.

The remainder of those needing care were taken care of in May and June 1937.

Below follows the report of this work done by Dr. R. E. Sargent of Bristol.

41 Children examined
 10 Pupils needing temporary teeth extracted
 3 Pupils needing permanent teeth extracted
 1 Pupils needing cavities filled in temporary teeth
 24 Pupils needing cavities filled in permanent teeth
 27 Pupils needing prophalaxis
 38 Pupils were treated
 35 Pupils received certificates that work was completed
 27 Pupils had teeth cleaned
 16 Temporary teeth were extracted
 2 Permanent teeth were extracted
 2 Cement fillings were made
 42 Silver fillings were made
 1 Porcelain filling was made
 90 Separate operations is the total
 3 Received free care
 22 Paid for all work
 11 Paid for part of the work
 \$73.70 Total cost of clinic.

Thanks are due the Red Cross for a generous contribution. A study of the above report will show that substantial reductions were granted to make possible a total forty-five fillings and twenty-seven cleanings for the above sum. It was the first visit many of the children had ever made to the dentist. School attendance

is more regular when there are no absences due to tooth ache.

The health of the children is improved. The fine spirit shown at the Fiske School is to be commended when the children earned enough to pay for necessary work to be done for all. Much thanks is due those who gave so generously of their time to make the entertainment a success. Transportation to the clinic was provided by the nurse in most instances.

It is hoped this beginning may be followed up each year by at least one examination by a qualified dentist.

I wish to thank all who made this record possible.

Respectfully submitted

EVA M. NELSON,
School Nurse.
